Version- This is the release number of the software.

Edition- This determines the package contents—not what concepts are taught.

Dialect- Languages such as Spanish and English are offered in more than one dialect. Latin American is the preferred Spanish dialect in the U.S. and throughout North, Central, and South America.

Tech Support- You will need access to tech support if you ever need to reactivate the software on a new computer.

Condition- In addition to obvious considerations, make sure that sets offered by secondary sources have NOT been activated at all.
